

# Again and again and again

Given the time, the patience, and the money, one can connect\* fifty 303 amplifiers nose to tail so that the programme goes through one after the other gradually deteriorating along the way.

Deteriorating? The fact is, that apart from a very slight background hiss – akin to a good tape recording – the programme will sound exactly

the same at the end as when it started.

\*Of course one must fit an attenuator to reduce the signal back to its original level between each amplifier.

Send postcard for illustrated leaflet to Dept. SS Acoustical Manufacturing Co. Ltd., Huntingdon PE18 7DB. Telephone (0480) 52561.
