Meridian Sooloos Media Core 200 Digital Media System now Available

**Makes the Meridian Sooloos Experience Even More Accessible -
Providing Storage, Rendering and System Core Functionality in
a Compact and Elegant Upright Case**

Press release

Meridian Audio has announced the introduction of the **Meridian Sooloos Media Core 200 Digital Media System**, an elegant, compact and virtually silent system that requires only the user's choice of controller to perform. It can be operated by any of the network-based control systems available, including the iPad or iPhone App, a computer running the Control PC or Control Mac application, or a Meridian Sooloos controller such as the Control 15 or Control 10.

At the heart of the Media Source 200 is a 500GB hard drive, storing around 1,000 CD albums in pristine lossless quality for graphical and touch-screen access via the award-winning Sooloos interface.

Key Points for Editors

- A complete Meridian Sooloos Digital Media System offering internal storage for up to approximately 1000 CD albums in full lossless quality via its internal 500GB drive.

- Connect Media Core 200 to the Internet to manage and enjoy streamed audio services, including Rhapsody® (where available).
- Import your existing digital music library – for example from iTunes® – using free Meridian Sooloos software tools.
- Full integration with Meridian and Meridian Sooloos audio systems. Can also be networked to any other Meridian Sooloos product, adding extra storage or zones.
- Extremely simple to connect and set up.
- Fanless operation for minimum noise level means it can be located within the listening area.
- Integrated single-zone audio renderer featuring a full suite of Meridian's Resolution Enhancement DSP technologies, delivering pristine quality via analogue, S/PDIF digital and SpeakerLink outputs.

See accompanying Meridian Sooloos Media Core 200 Data Sheet for more details and Outline Technical Specifications.

Meridian Sooloos Media Core 200 Digital Media System

UK Suggested Retail Price £2,000.00

About Meridian Audio Limited

Meridian is based near Cambridge, UK, and was founded in 1977 by Bob Stuart and Allen Boothroyd. With over 30 years' history of innovation and development of uncompromised consumer home entertainment systems offering exceptional performance, this award-winning company is widely recognized as a world leader in high-quality audio and video reproduction. Meridian developed the first audiophile CD player, the world's first consumer digital surround controller, and the MLP lossless packing system included in Blu-ray Disc. The company's optical disc players, DSP-based loudspeakers, video projectors, and scalars are unique in the industry, maintaining a super-quality digital signal throughout the path from the studio to the home, using advanced digital signal processing to deliver both a sweet, natural sound and smooth, crystal-sharp images with true cinematic realism. In late 2008, Meridian acquired leading networked media server developer Sooloos, and today the Meridian Sooloos Digital Media System offers a unique combination of superb digital audio quality with the world's most innovative, flexible and intuitive touchscreen-based home entertainment system.
